

## Sample presentation

---

Michael Eder

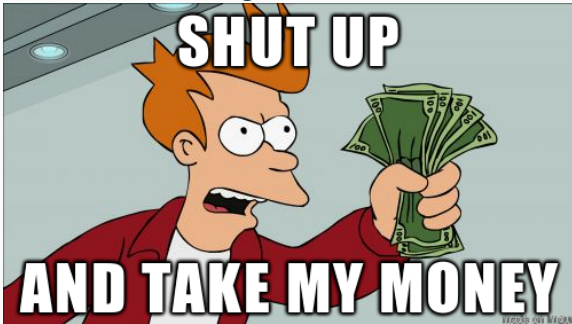

03.02.2017

## Second slide

- Lists
  - are
  - also
  - supported
- 
1. Even
  2. enumerated
  3. ones

## Third slide

- My awesome Blog!
- And it also has images!

- Math can be inlined
- $2^3 = 2000$

## Code works also

```
for i in range(0,5):  
    print("Hello World!") # prints "Hello World" 5 times
```
